ABOUT US

One team for your whole product

Dinoustech Private Limited is a software development company headquartered in Jaipur, with an office in Mumbai. Our team has 7+ years of experience and has launched 450+ apps, websites and software products for founders, small businesses and enterprises.

We work as one team with you, from the first idea to launch and beyond. You talk directly to the people who design and build your product, see a working build every two weeks, and own every line of code.

Our sweet spot is helping startups and SMEs launch fast: a focused MVP, a fixed price agreed in writing, and a clean codebase that can grow with the business.

- Company registered in 2024, team in the field for 7+ years
- Team of 10–49 designers, developers and testers
- ISO certified processes
- Clients across India, USA, UK, UAE and Australia

Our mission

Make great software affordable for startups and small businesses everywhere.

Our promise

Clear scope, honest timelines and no surprises on the invoice.

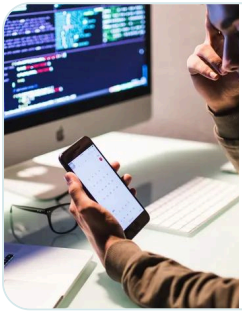

How we work

Small senior teams, weekly updates and code that you own.

WHAT WE DO

Services

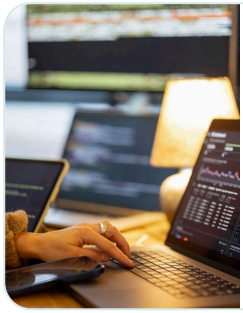

Everything you need to design, build, launch and grow a digital product, under one roof.

Mobile App Development

Android, iOS, Flutter and React Native apps that feel fast and native.

Android · iOS · Flutter · React Native

Web Apps and SaaS

Portals, dashboards and SaaS products with subscriptions and roles.

Next.js · React · Node.js · Laravel

AI Solutions

AI agents, chatbots and generative AI features grounded in your data.

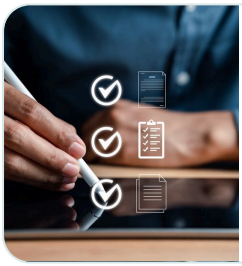

OpenAI · Claude · Gemini · LangChain

MVP Development

A focused first version in 6 to 10 weeks to test your idea with real users.

Scope · Design · Build · Launch

Custom Software

CRM, ERP, HR and operations tools built around how your team works.

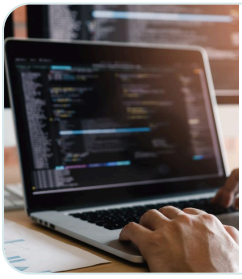

CRM · ERP · Automation · Reports

UI/UX Design

Research, wireframes and clickable designs before a line of code.

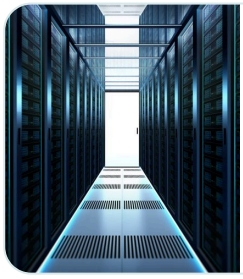

Figma · Prototypes · Design systems

Dedicated Developers

Developers who work only on your product and join your stand-ups.

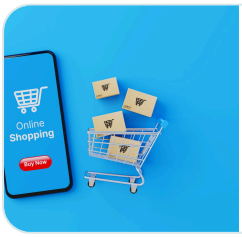

From $2,500 per developer per month

Maintenance and Support

Code audits, bug fixes, updates and monitoring for live apps.

Audits · Fixes · OS updates · Hosting

E-commerce

Online stores, marketplaces and quick-commerce apps with payments.

Stores · Marketplaces · Delivery

Digital Marketing

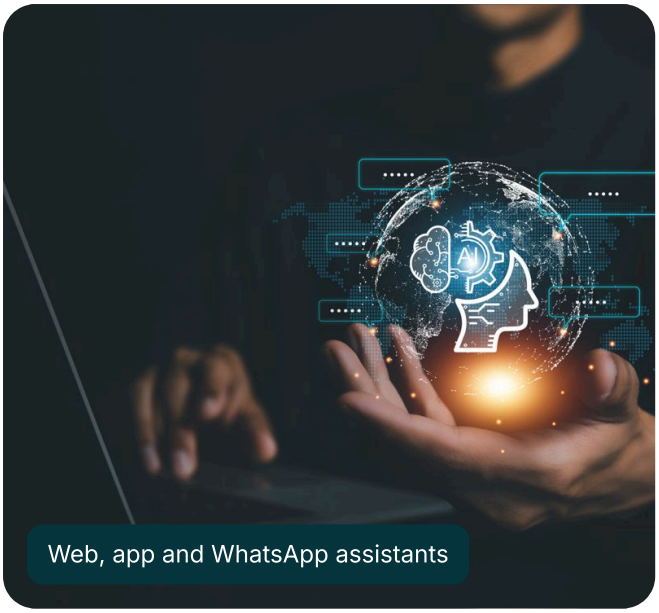

SEO and content that bring the right users to your new product.

SEO · Content · Social

DINOUSTECH AI

AI that does real work in your business

We add practical AI to new and existing products, with clear limits on what the AI can see and do, and costs you can predict.

AI Agents

Agents that handle workflows like lead follow-up, support tickets and data entry.

AI Chatbots

Assistants for website, app and WhatsApp, answering from your own documents.

Generative AI

Content drafting, summaries, image generation and copilots inside your app.

Machine Learning

Forecasts, recommendations and fraud checks from your own data.

AI Consulting

Find where AI pays off before you spend on it.

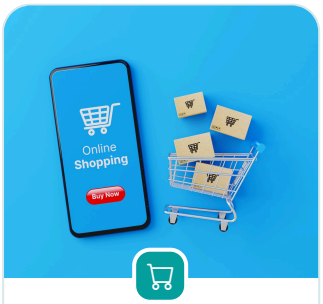

Hire AI Developers

Dedicated AI and ML engineers for your team.

Popular AI use cases we build

Healthcare
Symptom checkers and smart triage

E-commerce
Product recommendations and search

Fintech
Fraud checks and credit scoring

Education
AI tutors and auto-graded tests

03

Gyms, coaching, trackers

Astrology

Consultation, wallets

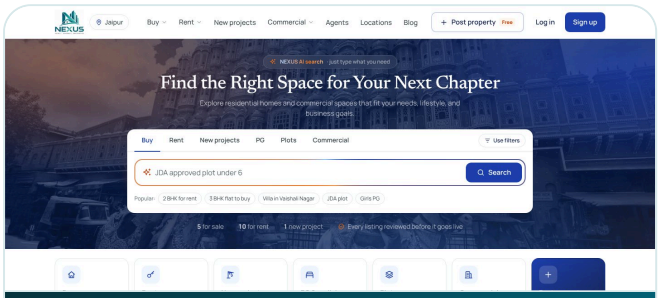

Media and OTT

Streaming, live events

OUR WORK

Selected projects

A few of the 450+ products our team has built. More on our portfolio page: dinoustech.com/portfolio

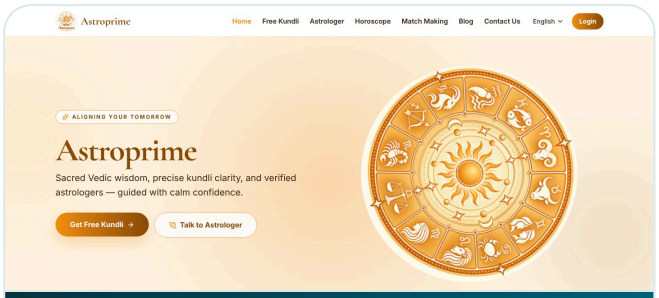

REAL ESTATE · AI

Nexus Estate

A property portal for Jaipur to buy, rent or list homes, plots and commercial spaces. Users search in plain language and AI turns it into filters, with map search, price insights, an EMI calculator and a free dashboard for owners and agents.

Next.js · Node.js · MongoDB · AI Search

nexusestate.in

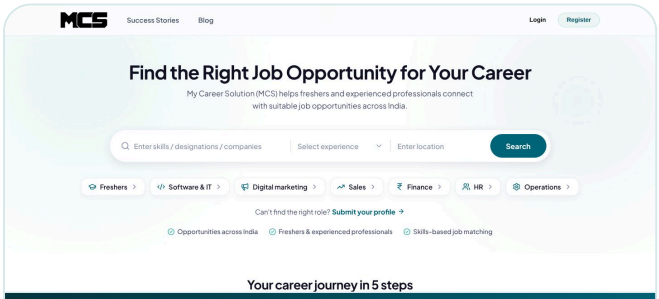

ASTROLOGY · CONSULTATION

AstroPrime

An online astrology platform with kundli tools and horoscopes. Users talk to verified astrologers over chat, audio or video with per-minute wallet billing, or ask an AI astrology chat. Includes pooja booking and an astrologer portal.

Next.js · Socket.io · UPI payments · AI Chat

astroprime.in

HR TECH · JOB PORTAL

My Career Solution

A platform that helps job seekers reach hiring teams at tech and product companies. Candidate dashboard, job applications, paid insight plans and an admin panel to manage candidates and employers.

React · Node.js · Redis · Razorpay

mycareersolution.com

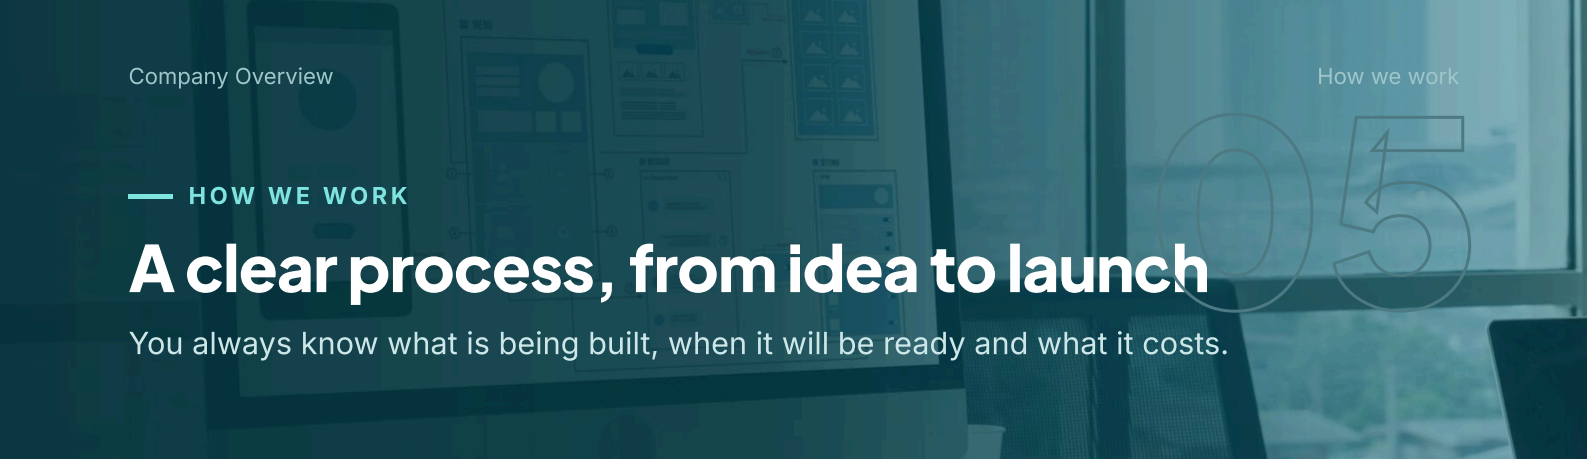

EDUCATION · GOVERNMENT

Bihar ECCE

An early childhood care and education platform focused on school readiness and foundational learning, with training content on child development and teaching methods for small students.

Web platform · Content · Training

HOW WE WORK

A clear process, from idea to launch

You always know what is being built, when it will be ready and what it costs.

01

Discovery call

We learn your goals, users and budget, and what the first version must prove.

02

Scope and quote

Feature list, timeline and a fixed price within 48 hours, under NDA.

03

Design

Clickable designs to test with users before any code is written.

04

Build in sprints

A working build every two weeks, on your own phone.

05

Test and launch

Real-device testing, then Play Store and App Store release.

06

Support and grow

Monitoring, fixes and new features with a monthly plan.

Ways to work with us

Fixed price

MVP from $6,000

Best for an MVP or a clear first version. Scope and price agreed in writing, paid by milestone.

Dedicated developers

From $2,500 / month

Developers who work only on your product, join your stand-ups and use your tools.

Time and material

Pay for hours used

For products that change every sprint, with a weekly report of where each hour went.

NDA first

Your idea is protected before we talk details.

You own the code

Full IP and code in your own repository.

Your time zone

Calls in US, UK, UAE and Australian hours.

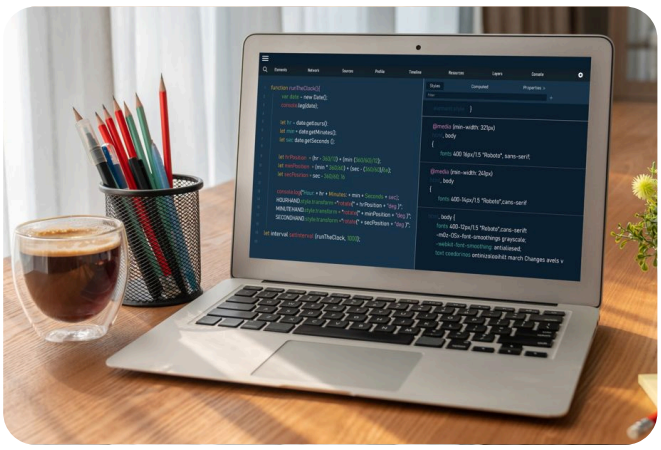

TECHNOLOGY

Our tech stack

Proven, widely used tools, so your product is easy to hire for, host and grow.

Mobile	Flutter, React Native, Swift, Kotlin, Jetpack Compose
Web front end	React, Next.js, Angular, Vue.js, TypeScript, Tailwind CSS
Backend	Node.js, NestJS, Laravel, Python, Django, GraphQL
AI and data	OpenAI, Claude, Gemini, LangChain, scikit-learn
Databases	PostgreSQL, MySQL, MongoDB, Redis, Firebase, Supabase
Cloud and DevOps	AWS, Google Cloud, Azure, Docker, GitHub Actions, Cloudflare
Payments and APIs	Stripe, PayPal, Apple Pay, Google Pay, Google Maps, Twilio, WhatsApp

WHY DINOUSTECH

Why clients choose us

Rated by real clients on Google and Clutch, and trusted by businesses in five countries.

4.9 ★★★★★
81 reviews on Google

5.0 ★★★★★
Verified reviews on Clutch

Fixed, honest pricing
Price agreed before we start. It only changes if the scope does.

Fast launches
Most MVPs go live in 6 to 10 weeks.

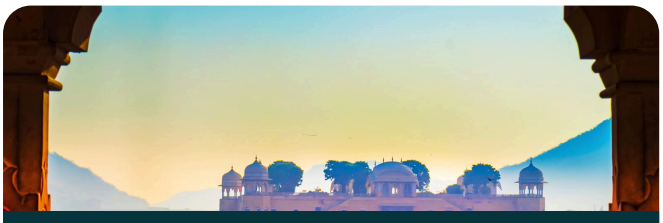

Direct access
Talk to the founder and the developers, not only a sales manager.

ISO certified
Documented processes for quality and data security.

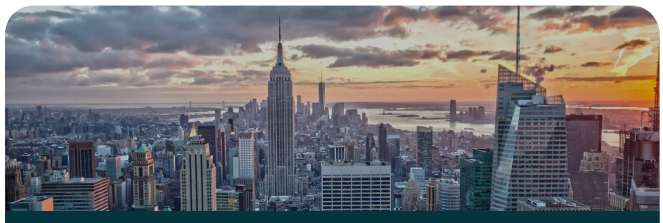

Senior people on every project
Experienced leads review the design, code and release.

Support after launch
Monitoring, fixes and updates with a simple monthly plan.

Where our clients are

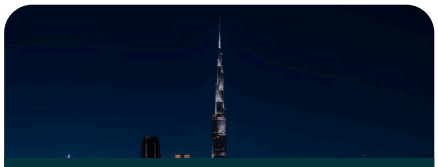

India
Head office in Jaipur, office in Mumbai

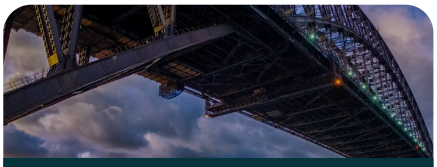

USA
Startups and SMEs

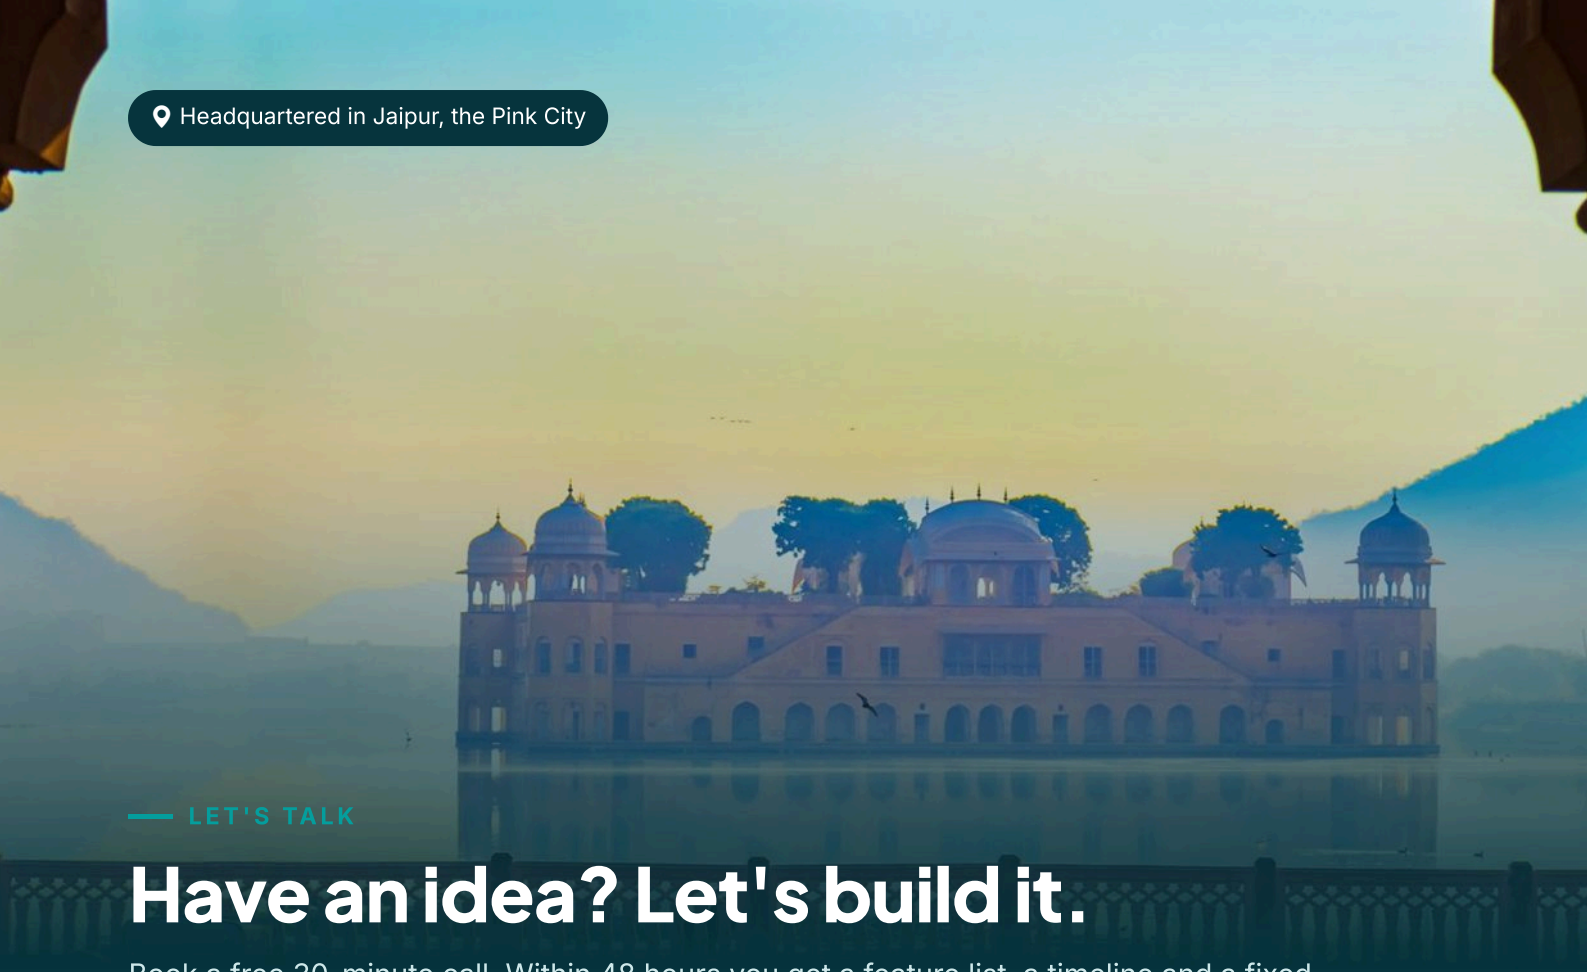

United Kingdom
Founders and agencies

UAE
Dubai and Abu Dhabi

Australia
Sydney and Melbourne

Headquartered in Jaipur, the Pink City

LET'S TALK

Have an idea? Let's build it.

Book a free 30-minute call. Within 48 hours you get a feature list, a timeline and a fixed-price quote, under NDA and at no cost.
